REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of the Town of Rollinsford:

I have the honor to transmit herewith, my sixth annual report as superintendent of your schools.

During the past year there has been only one change in the teaching force. Miss Madeline Gouin of Dover was elected to succeed Mrs. Bernice Murray as teacher of the Sullivan School. I am pleased to report that Miss Gouin is maintaining the high standard of efficiency set by her predecessor.

Very few changes have been made in the methods of teaching and in the organization of school work. Our aim has been to improve, and to develop along lines already laid down. We have tried to emphasize and perfect the fundamentals, such as reading, writing, arithmetic, history, geography, and spelling. Of these subjects the most difficult is spelling. Our poor spellers are from English-speaking homes as well as from homes of the foreign-born.

At the school district meeting last March the sum of \$50 was appropriated for library books. Of this amount about \$46 have been spent. The pupils have found these books to be very interesting and instructive.

By readjusting the route of transportation and by paying the tuition of two pupils to the city of Dover, the school board has been able to save the expense of one transportation team, thus making a saving to the district of \$540.

The school board of the city of Dover raised the tuition fee in the Dover high school to \$90 per pupil, beginning September, 1926. This of course materially increases the amount paid for the tuition of pupils in secondary schools. The opening of the Parochial school last September reduced greatly the number of pupils in attendance at the Town Hall schools, grades I to III, as will be seen from the following table.

The number of pupils enrolled during the school year 1925-26 was 302, in grades I to VIII. The percentage of attendance was 94.02. Ten pupils were not absent or tardy during the entire year. The total cases of tardiness amounted to 380. The aggregate attendance was 88,565. This makes a punctuality of less than $\frac{1}{2}$ of 1 percent. Your schools were in session on the average of 170.4 days. By the new calendar only 9.6 days were lost on account of holidays, teachers' conventions, contagious diseases and bad weather.

ENROLLMENT

The following table shows the enrollment of the schools for September 30, 1926 and for February 4, 1927. It shows a decrease of 24 pupils, largely owing to the fact that people have moved out of town and others have not come in to take their place. The average membership of grades I to VIII for the school

year 1925-26 was 276.3; the enrollment Jan. 29, 1926 was 277, or 75 more than at present.

It is gratifying to note the interest which the citizens of Rollinsford have taken in their schools. Last year's report shows that there were 295 visits to all the schools by the parents and friends who were interested in what the public schools are doing. There were 33 visits by school board members.

Your superintendent made 374 official visits to the schools to inspect the instruction, in addition to many other short visits which were not recorded. Frequent tests were given. Neither teacher nor pupil knew that these tests were coming. Thus it was possible to determine what degree of efficiency the pupils had attained rather than have them study especially for any examination.

The social side of school life has not been neglected. The eighth grade gave an entertainment, the proceeds of which were used to pay the expense of a sight-seeing trip to Boston. This trip was of great historical interest to the pupils, including as it did Bunker Hill, Boston Common, the Public Library, Franklin Park, Harvard College and other places of interest.

The pupils of the primary grades gave a Mother Goose play which was liberally patronized. Part of the proceeds were used to finish paying for the piano in the Town hall. A snug sum was left in the treasury. A whist party and dance was given by the boys and girls of the eighth grade.

These social affairs have been very successful. The teachers have given freely of their time and energy. The co-operation of the public with the schools has been splendid.

Under the direction of Mr. Swann, the work so well begun last year has gone along quietly and effectively. Games of basketball are played after school hours in the Town hall. Unfortunately there is no diamond accessible for playing baseball.

At the present writing (February 10) it is impossible to forecast what the probabilities of school attendance will be next September. It depends upon the resumption of work at the mill. We all hope for the best.

Your attention is invited to the very interesting report of Mrs. William Leonard, school nurse.

In conclusion I wish to express my appreciation of the co-operation and assistance which have been rendered by the school board, teachers and parents. We are all working together for the welfare of the boys and girls of the town of Rollinsford.

Respectfully submitted,

WALTER H. YOUNG,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

I herewith submit my third annual report of the health work done in the Rollinsford schools.

During the first term every child was given a thorough physical examination and these defects were found:

Malnutrition	24
Defective vision	6
Defective hearing	2
Pulmonary disease	9
Skin disease	1
Othopedic defects	1
Defective teeth	97
Hypertrophied tonsils	26
Adenoids	19
Enlarged glands	23
Unvaccinated	3
Other defects	3

Notices of these defects were sent to the parents and they were urged to consult their physicians about having them corrected. Among the corrections made during the past year are seven children who had tonsils and adenoids removed, and thirteen children who were fitted with glasses. We feel now that almost every child who needed glasses has them. While we

still have our share of underweights, the reports of this year compared with those of last show a marked decrease of these children.

Health and cleanliness have been taught by means of stories, lectures, games, playlets and posters. Frequent examinations for symptoms of contagious diseases have been made. We had a few cases of measles but no serious epidemic.

First aid treatments have been given to minor ailments. Absent children have been visited in their homes and treatments and advice given. Several children have been taken by your nurse to the physician, dentist or oculist. Classes teaching the importance of proper diet and proper care of the teeth have been held in the different rooms.

May I take this opportunity to thank Mr. Young and the teachers, and also the friends of the school for their spirit of co-operation during the past year.

Respectfully submitted,

ANNETTA C. LEONARD, R. N.,
School Nurse.
